Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 11 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Imai. The rejection is applied as in the previous Office Action. Applicant argues that because of the large number of elastomers encompassed by the reference teachings, it would not have been obvious to select the olefin based or styrene based resins required in the claims. With respect to the olefin based resins, as used by applicant the term copolymer encompasses a terpolymer. See the specification at page 27, second paragraph. Therefore, an ethylene/propylene copolymer includes EPDM. With respect to the styrene based resin, the hydrogenated diene polymer of the reference contains an hydrogenated butadiene block (C) and a second block (D) that is a butadiene block or an alkenyl aromatic compound/butadiene block. Styrene is one of two particularly preferred alkenyl aromatic compounds. See col. 3, lines 40-57. Thus, the specific hydrogenated block copolymers taught by the reference include hydrogenated styrene-butadiene block copolymer. Use of a hydrogenated styrene-butadiene block copolymer in the olefin-epoxy copolymer/ polyester elastomer blends is anticipated by or would have been obvious over the reference.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1712

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
